

Proposed 2020 dividend of USD 1.80 per share representing an 80 percent increase on 2019 dividend

The Board of Directors of Lundin Energy AB (Lundin Energy) proposes a 2020 dividend of USD 1.80 per share, corresponding to MUSD 512.

The Board of Directors will propose to the 2021 Annual General Meeting, in accordance with the dividend policy as announced on 30 January 2019, a 2020 dividend of USD 1.80 per share, corresponding to MUSD 512 (rounded off), noting the reduced 2019 dividend of USD 1.00 per share, that was approved, to maintain financial prudence and further liquidity flexibility in light of the then prevailing market conditions. The proposed 2020 dividend is to be paid in quarterly instalments of USD 0.45 per share, corresponding to MUSD 128 (rounded off). Before payment, each quarterly dividend of USD 0.45 per share shall be converted into a SEK amount, and paid out in SEK, based on the USD to SEK exchange rate published by Sweden's central bank (Riksbanken) four business days prior to each record date (rounded off to the nearest whole SEK 0.01 per share). The final USD equivalent amount received by the shareholders may therefore slightly differ depending on what the USD to SEK exchange rate is on the date of the dividend payment. The SEK amount per share to be distributed each quarter will be announced in a press release four business days prior to each record date.

Lundin Energy's objective is to create attractive shareholder returns by investing through the business cycle with capital investments allocated to exploration, development and production assets. The plan is to maintain or increase the dividend over time, in line with the Company's financial performance and being sustainable below an oil price of USD 50 per barrel. The dividend shall be sustainable in the context of allowing the Company to continue to pursue its organic growth strategy and to develop its contingent resources whilst maintaining a conservative gearing ratio and retaining an appropriate liquidity position within its available credit lines.

Information about the proposed dividend to be paid out as follows:

Expected ex-dividend date	Expected record date	Expected payment date
31 March 2021	1 April 2021	8 April 2021
1 July 2021	2 July 2021	7 July 2021
1 October 2021	4 October 2021	7 October 2021
4 January 2022	5 January 2022	11 January 2022

In order to comply with Swedish company law, a maximum total SEK amount shall be pre-determined to ensure that the dividend distributed does not exceed the available distributable reserves of the Company and such maximum amount for the dividend has been set to a cap of MSEK 7,636 (i.e. MSEK 1,909 per quarter). If the total dividend would exceed the cap of MSEK 7,636, the dividend will be automatically adjusted downwards so that the total dividend corresponds to the cap of MSEK 7,636.

Lundin Energy has grown from an oil and gas exploration company into an experienced Nordic energy developer and operator. We continue to explore new ideas, new concepts and new solutions to maintain our position as an industry leader in production efficiency, sustainability and decarbonisation. (NASDAQ Stockholm: LUNE). Forward-looking statements

Certain statements made and information contained herein constitute “forward-looking information” (within the meaning of applicable securities legislation). Such statements and information (together, “forward-looking statements”) relate to future events, including Lundin Energy’s future performance, business prospects or opportunities. Forward-looking statements include, but are not limited to, statements with respect to estimates of reserves and/or resources, future production levels, future capital expenditures and their allocation to exploration and development activities, future drilling and other exploration and development activities. Ultimate recovery of reserves or resources are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management.

All statements other than statements of historical fact may be forward-looking statements. Statements concerning proven and probable reserves and resource estimates may also be deemed to constitute forward-looking statements and reflect conclusions that are based on certain assumptions that the reserves and resources can be economically exploited. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as “seek”, “anticipate”, “plan”, “continue”, “estimate”, “expect”, “may”, “will”, “project”, “predict”, “potential”, “targeting”, “intend”, “could”, “might”, “should”, “believe” and similar expressions) are not statements of historical fact and may be “forward-looking statements”. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. No assurance can be given that these expectations and assumptions will prove to be correct and such forward-looking statements should not be relied upon. These statements speak only as on the date of the information and Lundin Energy does not intend, and does not assume any obligation, to update these forward-looking statements, except as required by applicable laws. These forward-looking statements involve risks and uncertainties relating to, among other things, operational risks (including exploration and development risks), production costs, availability of drilling equipment, reliance on key personnel, reserve estimates, health, safety and environmental issues, legal risks and regulatory changes, competition, geopolitical risk, and financial risks. These risks and uncertainties are described in more detail under the heading “Risk management” and elsewhere in Lundin Energy’s Annual Report. Readers are cautioned that the foregoing list of risk factors should not be construed as exhaustive. Actual results may differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements are expressly qualified by this cautionary statement.
